

Okehampton College

Mathematics

Year 8

Summer Term Review

Name:

Core and Higher

Topic 1	Brackets, equations and inequalities
Topic 2	Number sense
Topic 3	Angles in parallel lines and polygons
Topic 4	Area of trapezia and circles
	Answers

Introduction – how to use this booklet

This booklet is to help you review and revise the key topics covered towards the end of the academic year (and mostly by remote learning).

Early in the Autumn term you will have a written assessment on questions from these topics and your performance will help your teachers plan how to support you next year.

Each section contains a Knowledge Organiser on the topic, followed by practice questions. The answers are at the end of the booklet.

If you have completed most of the remote learning lessons set on Class Charts, you may still like to use this booklet to review what you have learnt and help you prepare for the assessment.

If you have not been able to complete many of the lessons, the knowledge organisers should help you catch up on the topics and answer the practice questions. You should check your work against the answers and if necessary, go back and correct any mistakes.

You will still be able to log in to the Sparx lessons (codes given on Class Charts for your class) until 31st July, so you can still use this resource to catch up on some topics and practise the skills.

If your maths group is 8xMa1, 8xMa2 or 8yMa1, 8yMa2, you should be able to answer the Core questions but may like to do some of these then concentrate on the Higher questions.

For all other students, you should concentrate on the Core questions (though of course you are welcome to try the Higher ones as well!)
