

Okehampton College

Mathematics

Year 7

Summer Term Review

Name:

Core and Higher

Topic 1	Fractional Thinking – Addition and Subtraction of Fractions
Topic 2	Lines and Angles – Geometric Reasoning
Topic 3	Reasoning with Number – Developing Number Sense
Topic 4	Reasoning with Number – Prime Numbers and Proof
	Answers

Introduction – how to use this booklet

This booklet is to help you review and revise the key topics covered towards the end of the academic year (and mostly by remote learning).

Early in the Autumn term you will have a written assessment on questions from these topics and your performance will help your teachers plan how to support you next year.

Each section contains a Knowledge Organiser on the topic, followed by practice questions (Core and Higher level). The answers are at the end of the booklet.

If you have completed most of the remote learning lessons set on Class Charts, you may still like to use this booklet to review what you have learnt and help you prepare for the assessment.

If you have not been able to complete many of the lessons, the knowledge organisers should help you catch up on the topics and answer the practice questions. You should check your work against the answers and if necessary, go back and correct any mistakes.

You will still be able to log in to the Sparx lessons (codes given on Class Charts for your class) until 31st July, so you can use this resource to catch up on some topics and practise the skills.

If your maths group is 7x/Ma1 or 7y/Ma1, you should be able to answer the Core questions but may like to concentrate on the Higher questions.

For all other students, you should concentrate on the Core questions (though of course you are welcome to try the Higher ones as well!)
