

PRODUCT DESIGN SUMMER WORK 2022

During the taster session, students were asked to collect up any broken / disused / redundant household products such as cordless power tools, hair drier, kitchen hand mixer etc that could be used for a product disassembly exercise in the Autumn term.

Students were told they would need to buy the following books:

- OCR AS/A Level Design & Technology (Hodder Education)
- OCR AS/A Level Design & Technology - Product Design my revision notes (Hodder Education)
- Essential Maths Skills for AS/A Level Design & Technology (Hodder Education)

(If you think you may be entitled to the P-16 Bursary, please either keep receipts for any items bought for your courses, or speak with Mrs Little in September who will be able to order the books for you) Full details regarding the P-16 Bursary can be found on the school website/P-16 tab.

You will also need to download Autodesk - 'Inventor' (Free - student version) to your own laptop / PC or have access to another similar 3D CAD package i.e 'Solidworks' (One of the students was already familiar with this product).
