

Task 1 Picture Collage and Typography

Home learning-
Paperboyo Task

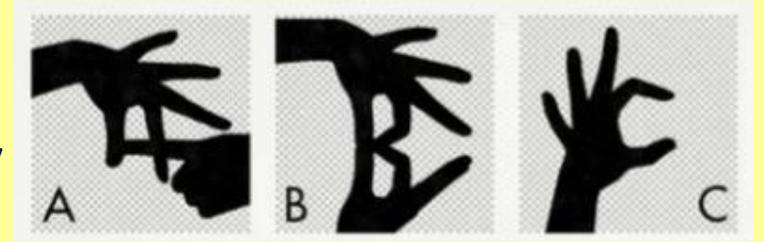

The main challenge is looking at everyday items in such a different way to see if you can notice letter shapes.

A Level Photography from home

Task 1: Typography through photography

A02-Creative making A03- Recording ideas

Your photography task is to capture through photography the letters that make up the **'theme'** of your **choice**. **This could be to do with** lockdown, family, isolation, pastimes, media, news, reflections- **this is really up to you**.

These letters will not be conventionally found so you will have to either see them with your creative eye or make the letters yourself. **Note: you are not making the full alphabet just a title and a series of words/images.**

For example if you have the theme of 'Alone' will need the letters **A-L-O-N-E** and you could create these using your hands/hand shadows to relate to your theme or ask people to use their full body to morph into a letter shape against a plain background.

Or you could line up personal belongings on the floor to 'spell out' the letters and take a bird's eye photograph.

If you were taking letters for 'OUTSIDE' you will need the letters **O-U-T-S-I-D-E** and can find these letters with plants, spell out letters with leaves/twigs/fruit segments/vegetables, find the letters in patterns on flowers from your gardens etc.

If you were taking photographs of letters for your daily 'walk' or 'Journey' your will need the letters **J-O-U-R-N-E-Y** and can use lots of found objects from your walk to spell out the letters, personal items, find letters in cracks in the path, put water on the bottom of your shoes outside and photograph the watermarks in the shape of a letter etc.

Letter inspiration

A Level Photography from home

Task 1: Typography through photography

A02-Creative making A03- Recording ideas

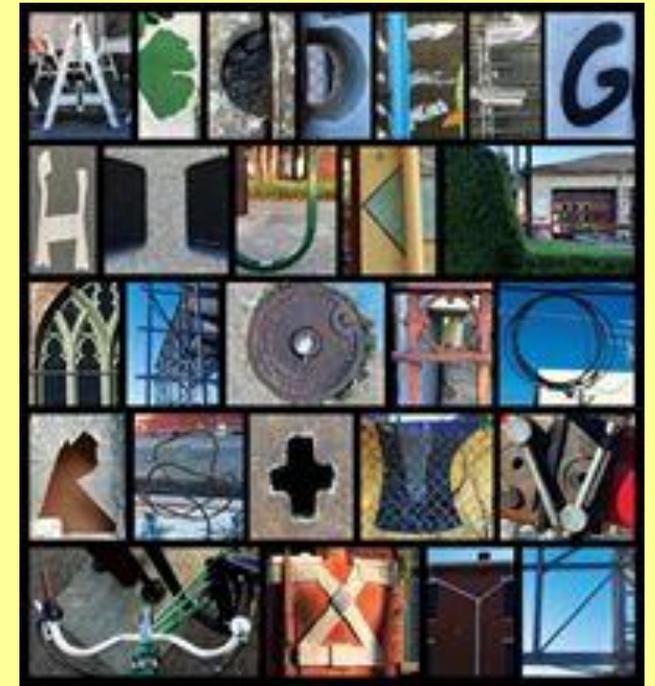

Once you have taken your photography letters separately and they are in focus and cropped if needed you will need to present them in a **digital sketchbook entitled: Task 1 Typography- spelling out your chosen theme.**

It is your decision if you would like to use Photoshop or phone app to make your letters monochrome or keep them in colour. Editing can be used creatively, to a certain extent but all work must be shown on your edits page. Please include contact sheets as well.

Add your work to TEAMS as it should be a small enough file to upload. Remember-*Where can you see letters?*

Stay safe- Best of luck, Mrs P!

Home learning task on the next slides.

Typography through photography

Creating imaginative Pictures within Images

For your home learning task, I want you to make a silhouette and use perspective to create a new scene in the style of Paperboyo. This could be an indoor scene or a view from your window.

1. Create a series of images using a silhouette or series of silhouettes. Include annotations and a contact sheet.
2. Produce at least one slide on Paperboyo having looked at his Instagram and similar digital media sites.

Here are some examples in his style to get you going!
